

Name _____ Sci# _____

Solid

Liquid

Gas

Plasma

Directions

Front: For each of the four states of matter, write out the definition and properties and draw at least 3 objects that are in that state of matter.

Back: Use your notes to fill in the chart below just like it was presented in the last slide of notes yesterday. Make sure to use the following terms and don't forget the arrows.

Solid, liquid, gas, melting, vaporization, sublimation, endothermic, condensation, freezing, exothermic

High Thermal Energy

Low Thermal Energy
