

Directions

- 1) Open Inspiration
- 2) Open the file "ElementGroups" off your Z-drive
- 3) For each of the groups include the following information from your "Grouping the Elements" worksheet. If you don't have your "Grouping the Elements" worksheet completed use pages 310-317 in your textbook.
 - Name of the Group (Ex: Alkali metals)
 - Electrons in the outer energy level
 - Shared properties of the group
 - One use for this periodic group
 - 3 elements from this group

Make sure to print off a copy to turn in.
